Project

Course: SECU74010-24W-Sec1-Privacy in Computing

Criteria	Incomplete (Zero)	Unacceptable	Developing	Acceptable (Pass)	Emerging	Accomplished	Exceptional (Perfect)	Criterion Score
Digital Solution	0 points -	4 points Minimal integration of PETs; the prototype lacks significant privacy features relevant to the use cases.	8 points Basic PETs are implemented, but the integration is superficial or not fully functional across all use cases.	12 points PETs are adequately integrated, addressing key privacy concerns within the use cases, though some features could be improved.	14 points Good integration of PETs with effective privacy features covering the use cases; minor enhancements could further strengthen privacy.	18 points Excellent and innovative integration of PETs that significantly enhance privacy across all use cases; very minor improvements needed.	20 points -	/ 20

understand their complexities and implications for individuals and society in line with ethical standards, legal standards and current industry practices.

- CLO2: Recommend privacy-enhancing technologies (PETs) in real-world scenarios to protect user data and maintain confidentiality in accordance with best data protection practices.
- CLO3: Analyze the legal and ethical aspects of privacy in computing to provide an informed perspective on the balance between data use and privacy rights in accordance with established legal frameworks and ethical guidelines.
- CLO4: Synthesize knowledge of global privacy regulations into compliant data management and policy development strategies in line with

Criteria	Incomplete (Zero)	Unacceptable	Developing	Acceptable (Pass)	Emerging	Accomplished	Exceptional (Perfect)	Criterion Score
Privacy Compliance	0 points -	2 points The compliance documentation lacks depth, misunderstanding key legal requirements.	4 points Basic understanding of regulatory requirements is shown, but the documentation has significant gaps or inaccuracies.	6 points Adequately covers compliance with privacy regulations, though the analysis could be deeper or more comprehensive.	7 points Good, detailed compliance documentation that accurately reflects regulatory requirements; minor omissions may be present.	9 points Exceptionally thorough and insightful compliance documentation that demonstrates a deep understanding of privacy regulations.	10 points -	/ 10
Ethical Considerations	0 points -	2 points Ethical considerations are largely ignored or misunderstood in the report.	4 points Shows a basic awareness of ethical issues, but analysis and application are limited or simplistic.	6 points Ethical issues are identified and addressed adequately, but with room for more nuanced or comprehensive analysis.	7 points Strong ethical analysis with thoughtful considerations and solutions to identified issues; minor areas could be developed further.	9 points In-depth and detailed handling of ethical considerations, demonstrating advanced reasoning and innovative solutions.	10 points -	/ 10

the class during the last week of the semester. Each group member should present and questions will be asked by the professor.

Criteria	Incomplete (Zero)	Unacceptable	Developing	Acceptable (Pass)	Emerging	Accomplished	Exceptional (Perfect)	Criterion Score
Privacy Risk Assessment	0 points -	2 points The risk assessment report fails to identify key privacy risks associated with emerging technologies.	4 points Identifies some privacy risks but lacks depth in analysis or mitigation strategies; shows a basic understanding of potential impacts.	6 points Provides a solid risk assessment with reasonable identification of risks and proposed mitigation strategies, though it could be more detailed or comprehensive.	7 points Very good risk assessment that thoughtfully analyzes impacts and suggests effective mitigation strategies; minor gaps in analysis may exist.	9 points Comprehensive and insightful risk assessment that expertly identifies and addresses risks with well-considered mitigation strategies.	10 points -	/ 10

Criteria	Incomplete (Zero)	Unacceptable	Developing	Acceptable (Pass)	Emerging	Accomplished	Exceptional (Perfect)	Criterion Score
Present ation	0 points -	4 points Presentation lacks structure and coherence	8 points Presentation covers basic aspects of the project but lacks depth and clarity in explaining the deliverables.	12 points Presentation adequately outlines the project and its deliverables but lacks engagement or detailed explanation in some areas.	14 points Presentation is well-organized and covers all key aspects of the project, demonstrating good knowledge of the deliverables.	18 points Presentation is highly engaging and thoroughly explains the project's accomplishments, showcasing a deep understanding of all deliverables.	20 points -	/ 20
Submit		Cancel adequately cover the project's scope and deliverables. Not all group members participate in the presentation. The group struggles significantly to answer questions, demonstrating a lack of understanding of their own project.	Only some group members contribute to the speaking parts, leaving participation uneven. The group provides simplistic answers to questions, showing only a surface-level grasp of the project	All group members speak, but not all contributions seem well-integrated or equally informed. The group answers questions with some hesitation, indicating a general but incomplete understanding	All group members actively participate, though some are more confident and knowledgeable than others. The group answers questions appropriately, with minor difficulties in addressing	All group members contribute significantly and confidently, demonstrating a strong team effort and individual understanding. The group responds to questions with confidence

Overall Score

Incomplete (Zero)
0 points minimum
The evaluation was not submitted or did not address any requirements.

Unacceptable
14 points minimum
The evaluation did not meet the provided requirements at an acceptable level. The results only addressed the given requirements briefly.

Developing
28 points minimum
The evaluation did not meet the provided requirements at an acceptable level. Major errors were noted in the results.

Acceptable (Pass)
42 points minimum
The evaluation met the requirements at an acceptable level. There are significant areas that can be improved.

Emerging
49 points minimum
The evaluation contained nearly all the required elements and criteria. The reviewer observed a notable area for improvement.

Accomplished
63 points minimum
The evaluation contained all the required elements and criteria. Some minor improvements were possible.

Exceptional (Perfect)
70 points minimum
The evaluation contained all the required elements and criteria. The work requires no feedback for improvement and leaves the reviewer with no questions.
